
SAMPLE WORD DOCUMENT

Hello, my name is Brian. It is nice to meet you. Here is an example of a page that we will copy and paste from Microsoft Word into the website editor. We typically do not like to cut and paste from Word into the editor because Microsoft can bring along some unwanted characters during the process. However, in many situations it works just fine. Here is a link to the [Municode](http://www.municode.com) website at www.municode.com.

THIS IS A STANDARD HEADING

The above is a standard H2 heading. It can be used quite easily to highlight sections of a web page. Your website is styled to use heading style H1 for the page title and heading styles H2 through H6 within the website body.

LET'S TRY A TABLE

OK. Now we are going to attempt to copy and paste a table from Microsoft Word into the website editor.

Header A	Header B	Header C	Header D
Cat	Dog	Mouse	Fox
Horse	Cow	Rooster	Hen

HOW ABOUT SOME LARGE MULTI-COLORED TEXT USING COMIC SANS FONT?

The quick brown fox jumped over the lazy dog.

NOW LET'S TRY AN UNORDERED LIST

- **Country A**
 - State 1
 - State 2
- **Country B**
 - State 1
 - State 2
- Country C
- Country D

HOW ABOUT AN ORDERED LIST?

1. Fruits
 - a. Apples
 - b. Oranges**
2. Vegetables
 - a. Broccoli**
 - b. Green Beans
3. Item Three

The end.
